The ADIM, IABC, and EIC Frankfurt Innovation Award Entries will be judged based upon the following criteria:

Innovation - An innovative idea or process that stimulates new ways of thinking and will create a substantial improvement in the battery area.

Uniqueness - The difference that the idea or process will make compared to present methods.

Manufacturing Feasibility - The ability of the concept or process and its applicability over overall effects in the industry.

Benefit to User - Improvement that concept or process will have in cost, timing and productivity and environment.

Please provide ADIM, IABC, and EIC Frankfurt 2027 with information that will help identify how your entry affected these four areas. Examples that provide this information are a report summarizing your entry, drawings, case studies, technical reports, etc.
